AMUSEKENTS.—The Opera House was filled last night with a fine andience, auxious to see the first performance of "Fun on the Bristol." We will not attempt a description of this comedy-oddity, and will only say that it was the very best one we have ever seen in the Opera House. The singing was excellent, the stagesetting immense, the dressing fine and the acting unexceptionable. The specialists were Meers. John F. Sheridan, William Contrivight, Frank Tannehill, Jr., Rich. Waldon, Myron Calice, Harry Saville and William Hughes, and the Misses Kate Castleton, Marion Fisk and Agnes Halleck. The widow O'Brien and Captain Starch of Mr. Sheridan were immense. His Irish feminine impersonations have never been excelled here and seldom equalled, while his English charscler was very fine. Mr. Courtwright, as the negro steward, the exodusier, &c., was excellent, as was also the various characters assumed by Messre, Saville, Calice and Hughes.

To the Readers of the Intelligencer. It is well known that hot weather brings sickness and that the greater are is necessary to prevent disorders ven on the part of those most healthy.

What there is in the heat that should cause disease cannot certainly b. known, but cholera, dysentery, debility, lassitude, vertigo and many other sudden and dangerous maladies come every season and cause great suffering and thousands of deaths. Few people go through the Summer without unpleasant symptoms. The mouth becomes dry and parched, the tongue furred with white, the pulse irregular, the head feverish, the body cramper and limbs swollen and tired. Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbestable while little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and well known phy-Parents neglect precaution and care. A prominent and self-known phy-sician of New York asserts as his positive belief that more than three-tourth of all so-called Summer complaints arise from disordered secretions, and that these secretionary organs, which, by being out of order cause so much trouble, are the kidneys and liver. The brain controls the life, but the lower part of the body rules the health,

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a West India leaf,) is used as the dangers of the Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the basis and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all uniary complaints of either sex it is infallible. For all billious troubles is certain. For the hot season it is invaluable and every person of care and intelligence should not fail to keep Warner's Safe Kid Cure near at hand, and use it upon the approach of the slightest symptom.

It may save your life or that of some dear friend; it will certainly present much suffering. It is for sale by druggists in all parts of the world; be careful and take no other. "A word to the wise is sufficient."
